“ *I remember Denny's blue Mustang and always wondering why he chose this car being so tall it seemed he almost didn't even fit behind the wheel. His seat was all the way back and down, but his head still was basically touching the roof. :) I also remember when he rented the old house at my dad's for awhile I would always go and hang out with him and play with Caty when she was really little. Even though he was much older than me we had a lot to talk about. One other thing I remember is it seemed he always had a cigarette lit and it was always a Camel wide... I never asked why he preferred such a fat cigarette, but I wish I would have along with the car question.*

Carrie and Caty I am so sorry for your loss. May he rest easy and live on through all our memories. I wish I could have seen him again though.

Till we meet again cousin Denny...tell your dad Uncle Donny and Grandma Petry hi for me...and fly high with the Angels... you will be missed..
