“ We are so sorry for your loss to the family. Karen was a great person, always full of life. She loved the kids and was a great aunt to them. We guess God had other plans for her now. He needed some help. She will be greatly missed but not forgotten.

I remember her Dad taking us so many places back then. Her whole family just great to be around. I hope she can spend some time with my son for me in Heaven ! “ I remember our family coming to your family's house to visit. Man, so many kiddos running around and having so much fun. Your dad was so tall and handsome; your mom beautiful, and both so kind. I'm so glad we had those times to share and good memories to revisit....

“ Oh Karen, you don't know the difference you've made in so many lives. From knowing just the right moment to crack a joke or simply stand next to me. You were never afraid to share your knowledge and help others grow. You never were afraid to get your hands dirty or to speak your mind.

What I wouldn't give for just one more Mexican potato Friday (I promise my car won't try to drown you!) or attempt at cajoling my mama into a fresh baked pie. I have a purse full of pennies for your locker and no where for them to go now.

To Karen's family...know she was loved far beyond belief. To her mama, I feel as if I know you just from her words. She loved you to the moon and back, even when you exasperated her. Maybe even more so then. I wish I could ease your pain at this time and maybe my memories will do that just a tiny tiny bit.

Karen, you'll always be the Mickey to my Minnie. I hope you're laughing with the Angels now.

Karen, we shared many laughs through junior high and high school. It surprised me when we discovered we had lived most of our adult lives only 40 miles apart! How I wish we had been able to get together like we wanted! Still, the chats we had, as far apart as they may have been, were full of laughs and jokes.

May your family find peace and comfort in the arms of our Father in heaven. RIP, dear lady. May your heart soar with the angels.
