

## Mark A. Marshall

December 25, 1963 - January 7, 2024

Dateline Jasper, Indiana

In loving memory of Mark Marshall, who passed away at the age of 60 on January 7, 2024. Mark died at home from complications from a workplace accident that he suffered just before Christmas.

Those who causally knew him were keenly aware that he was perpetually annoyed. If you truly knew him, you knew that he cared passionately about family, friends, and his Wonder Woman bride of 12-years, Paula Marshall.

Mark had strong opinions about life, being a man, a husband, a brother, a father, an uncle a friend and a conservative. He lived and shared those opinions freely and with powerful conviction. He was even known to share his opinions with random strangers.

He believed strongly that the first measure of a man was a strong handshake and direct eye contact. The amount of respect and love he had for you was directly correlational to how much he “picked” on you. If Mark was making fun of you or telling you how to live your life, know that you had found a place in his heart.

He had a love for and collected beautiful art deco fixtures and furniture. He felt

that everyone should conduct themselves in a manner befitting those art deco days of the 1930s. Men should wear a suit and tie to weddings and funerals. People should dress up for dinner. He had been known to call out those who showed up at such occasions in shorts or sweats.

At an early age, he developed a love for superheroes and sports celebrities. He spent 45 years collecting memorabilia and autographs. Filling his basement and two storage units to capacity. In 2019 purchased a dental office, In Huntingburg, Indiana, and he, along with his wife Paula, and a host of friends converted it into Marshall's Mancave. He filled the Mancave with his collection and began selling it.

His wife Paula transformed his world. Bringing light and a positive perspective to a man who could be easily drawn into darkness. Paula's conviction for seeing possibilities and the positive helped Mark to soften and enjoy life.

His daughter from his first marriage, Ellie, looks just like him. He had a complicated and estranged relationship with Ellie. He loved her from afar and was incredibly proud of the woman she became.

Mark truly loved his work. While with INDOT, he oversaw the construction of the southern Indiana phase of I-69. Working for VS Engineering, he oversaw the revitalization of downtown Huntingburg. He was incredibly proud of both.

Born on Christmas Day 1963 to Jerry and Marilyn Marshall. He was a 1982 graduate of Princeton Community High School.

Mark will be deeply missed by his wife Paula, brother Mike (Sharon), stepbrother Jeff Jewell, nieces and nephews as well as his extended family, friends, and his beloved dogs Stitch and Mr. Jones.

In lieu of flowers, the family requests that donations be made to Dubois County Humane Society in honor of Mark Marshall's memory.

A memorial visitation for Mark will be held on Thursday, January 11, 2024, from 4:00-8:00 p.m. at the Becher-Kluesner North Chapel in Jasper, Indiana, where friends and family will gather to celebrate Mark's life.

His funeral will be held the following day, on Friday, January 12, 2024, at 11:00 a.m. at the Becher-Kluesner North Chapel in Jasper.

Online condolences may be made at [www.becherkluesner.com](http://www.becherkluesner.com).

“ *The thing I loved the most about Mark is how much he supported Johanna and her athletics. I remember when he was visiting and she had a basketball game and he of course wanted to go and cheer for her. He was the loudest fan in the stands. And she ended up scoring the game-winning layup as time expired and he ran out on that floor and I think he was more excited than she was. I still love that memory- it shows such a supportive heart* ❤️❤️

“ Mike and Diane Peters. We live in Aurora In and our street is being completely rebuilt. For several months we only had access to our house by walking in and out. We met Mark during this time. Early on I was wearing sandals as I walked out and Mark told me I needed better shoes in the construction zone. After that I tried to wear my tennis shoes and he would always comment nice shoes. He was always helpful in and our questions, and we looked forward to seeing him everyday. He always had a huge smile when something big on the project was accomplished, such as the day they blacktopped. As we walked home he had a huge smile and was proud of making progress. We are so saddened by what happened. We have Mark in our prayers. Sincere condolences to your family.

Mark made such a wonderful impact on my grandson. He would always be so kind and would talk to him and made him feel better about talking to people. The first time my grandson met Mark, Mark new he really wanted one of the jerseys he had. Mark took it down and put it back behind the counter. He told you Paula that this is for a little boy thay was in here and I know he will be back wanting. Mark was right it was jersey day the next at his school, so I raced to get to you before you called. Calle you Paula and you called Mark and he new who it was he remembered my grandson so you turned around and meet us at you shop after hours so my grandson could have a wonderful jersey day at his school. Mark and you both always went above and beyond for my grandson. My sincere sympathy to you and your family. Mark is really going to be missed by so many.

“ I met Mark the first day of 6th grade band. I was standing by him a few days later when he got into it with someone and punched the wall in the middle school band room. His hand was in a cast for several months. We were friends till graduation and even went to the 8th grade dance together. In later years we tangled on social media about politics and his incessant mansplaining. The thing with Mark was that his strong opinions and passion revealed his huge heart. My condolences especially to Paula and the rest of his family. The light in the world has diminished a bit with his passing.

“ We took a trip to NYC for Yankees/Blue Jays game. We had full field access, and during a rain delay, I glanced into the Blue Jays dugout only to see the Whamner showing AJ Burnett how to grip a curveball. At that time, AJ was one of the best pitchers in MLB. Fortunately, I snapped a quick photo...typical Whammer! I have about 100 more stories about my friend...he filled the room....
