“ *Dear Dawkins Family: My thoughts and prayers are with you at this much needed time. Dr. Dawkins has been a part of my family for over 25 years. While I've only exchanged words with Dr. Dawkins one time, it was one that I cherish. You see, my dad has been his patient for several years and Dr. Dawkins coached, advised and supported my dad through 3 open-heart procedures, the first when I was only 8 years old. I had an opportunity about 10 years ago to thank Dr. Dawkins for saving my dad's life and managing his health to keep him around. Dr. Dawkins was such an integral part of my dad's life, words cannot express my gratitude. I truly believe that Phil played a critical role in keeping my dad alive.....alive to see all his children grow up and get married, alive to see his wife battle breast cancer and survive, and alive to see 11 grandchildren bless our family. While it would appear that Dr. Dawkins' life ended too soon, please know that he has touched so many people with his talent and we are so very grateful. Thank you Dr. Dawkins.
