“ I had been reminiscing and thought of Mr. Grammelspacher so I just googled his name. I was sad to see that he had passed away. He was such a great teacher and then a good friend. He recommended me for a job at Jasper Rubber Products and I was hired. I met Ken Krodel there and we got married and had 51 good years together. I always felt grateful to Ray for making such an impact on my life. I hope his family has many great memories.

“ It was nasty, abusive teachers like ray gramelspacher that made me desperate to quit school as soon as i could, which i did in the 9th grade, not long after good ol ray brutally screamed at me in the hall one day for no reason. Then minutes later, he stood in the classroom for 20 minutes carrying out a confusing psychotic rant at the class who watched and listened to him with feelings of shock and disbelief. Was it drugs, booze, mental illness? I do not know, but i know this whacko had no business being alone with kids. His warped sense of reality poisoned his view of history. He knew nothing about history. I realized this the day i heard him declare that the reason the confederate states of america failed was because it was a confederation. Besides subjecting children to his abusive personality malfunctions, he failed to teach anything important or true about history. Such a waste of everyone's time and tax money.

“ Mr. G was one of my favorites in high school. He made class fun, but very educational. He also remained a friend after school, playing golf and stopping by and visiting with us from time to time when we lived in French Lick. He was a great guy. He will be missed. Terry and Leah Pinnick
