“ I worked with Scott for a few years and we always had great conversions. One that comes to mind was talking about raising wagyu beer cattle. He broke down and analyzed everything. He was a good man! RIP Scott.

“ I first met Scott in the field house weight room at Rose-Hulman when I was a freshman. He was wearing his ATO gear and we struck up a conversation. From there, he recruited me to pledge ATO, which was one of the best decisions of my college years, and Scott was my pledge dad. Scott and I continued to work out together and he was always full of motivational sayings. Our similar 'stature' resulting in the nickname 'Sced' which was used interchangeably for either of us. As with all of us, I will miss Scott. His untimely departure is a sobering reminder to us all to never take a single day for granted. My sympathies to Karla and all of his family. See you in heaven, Brother Scott. VTL. Ed

“ Met Scott and Karla many years ago when giving two of their children piano lessons. They would sit in my Tv room and rest. They adored their children very much and I am sorry for the loss. Prayers with the family.

“ *Scott & I were fraternity brothers at Rose-Hulman. I remember Scott as someone who was always quick with a smile or a friendly greeting and he never seemed to have a bad day. He was always willing to help with homework or anything else that needed to be done around the frat house.
My thoughts are with his family. Peace.*

“ *Scott, was a very bright and pleasant fraternity brother who was quick to smile or laugh and always proud to have been from Jasper. One of my fondest memories of Scott is playing pickup basketball - one would have thought he was 6' 6" the way he would drive or take jump shots from anywhere! Scott had an outsized impact on those around him. Rest in peace.*

“ *I have fond memories of sitting next to Scott in the trumpet section of the JHS band. Although we were a class apart from each other, we were also in advanced biology class together. I recall how smart was and how easily he caught on to things. One particular band session we had finished playing a song and as I turned the pages of the book to go to the next song, I was greeted with a frog leg that Scott had hidden on the music stand for me to find (we had been dissecting frogs in biology and Scott must have been thinking ahead and taken the frog leg to surprise me with in band class.) I recall hollering out loud and then looking up to see our band director, Mr Holler, looking our way. We both just sat there and then proceeded to the next song. May you too treasure happy memories of Scott. My sympathies and prayers to Debbie, David, Gary, and all of Scott's family.*
