“ *She may have noticed live life by the rules and may a step backwards sometimes instead of fours but he did have a good head on her shoulders and I believe and I hope that she came past these challenges that her body and brain brought upon her I can only hope she's resting at peace and her life now she don't have to worry no more*

I could not believe it whenever I seen her picture under the obituaries I knew she had disappeared for quite a few years and I always asked where she was and nobody really knew where she had some trouble in her life that may have drawn her to get away from this area but I was hoping that she was doing well and keeping both feet on the ground but she was always an outgoing spontaneous fun loving person to be around if you were in a bad mood she can make you smile I've tried to get in contact with her several times throughout the years but I never had any luck I wish I could have talked to her before she passed away maybe I could have helped her and her problems are changed the way her outcome came but no matter what she will be remembered as a spunky fun spirited always laughing and trying to look at the good side of things I will miss her
