“ I had the chance to meet this man after I attended his 10 hour course and had to deliver a safe to his house three times. He was a character and he was also one of the kindest man I had the chance to meet in my lifetime. With him and his brother Bobby they had a great way to reach everyone in their training. He had a smile that would light up a dark room or make a gloomy day so much better, Bill always talked about his mom and dad in training and I can see where he got his personality.

I learned this morning of his passing and I have to say that the world is a lesser place without Bill. I do pity heaven though because when he meets St. Peter at the gates he may want to inspect the place a courtesy. God speed my friend your work here is done and now you can rest! You were taken from us too soon in life but I will see you in the life brother!!

“ I met Bill Pfister as a referral from Wilder Allen- we were all involved in the OSHA safety business. Bill became a customer and most importantly later became a great friend. Bill helped me by being influential within the safety community and introducing me to people who later became customers. My wife and I knew and personally visited with Bill, Bobby and Kathy for over 18 years, we think of them as extended family and share the loss of Bill. He was one in a million, we will miss him greatly and are thankful that he suffers no more. Our thoughts and prayers are with Bill's family,

“ I first met Bill when he and Bob came up to help us with our safety program. A true expert and advisor, he was a catalyst in helping us create a great culture. On the personal side, we broke bread at my house in Fort Wayne and stayed in touch over the last 15 years when my travels took me to Jasper. I will miss his humor, his caring demeanor, and friendship. My condolences to the family.

“ I'm so very sorry to hear of Bill's passing. It brought back memories of cheesy "magic" shows and productions in our neighborhood growing up. I always admired his courage and his dedication. God rest you, Billy!

“ So sorry to hear of Bill's passing. We worked closely for many years through STAC and we relied on Bill and Bobby and their expertise. I always enjoyed talking to them and sharing experiences. Bill's safety knowledge was top-notch and he made me a much better professional because of our relationship. Even more important than that, I was honored to call Bill my friend. He will be greatly missed and our thoughts and prayers are with the family.

“ I had the privilege of knowing Bill for a few years and conducting a few OSHA safety classes where he was my “subject matter expert” that is an understatement for sure. Bill had a wealth of knowledge and a unique way of sharing this where you would remember what he shared. Bill and brother Bob are true gentlemen and would do anything for anyone. Your pain on earth is over my friend.
